Getting in Line.

With the exception of only two or three, every Democratic newspaper of ability and character in the country that opposed Bryan in 1896 is equally pronounced against his candidacy this year. At the same time a number of Republican and independent newspapers in the Western Silver States that in 1896 supported Bryan are now heartily supporting McKinley. Among these are the Denver Times, Denver Republican and Salt Lake Tribune and papers of like standing and influence. The Denver Republican in commenting upon the drifting back into line of the great numbers of Republicans who supported Bryan in 1896 on the silver issue says: "If the movement continues throughout the campaign, at the present rate of speed nobody need be surprised to see Colorado give a majority for McKinley and expansion." Louisiana News.

Need a Change.

Joe Flory, the Republican candidate for governor, is a great favorite with all classes of people, and in view of the fact that the Democratic administration has been openly criticised as bad by the people generally, his election is looked upon with favor. The Democratic state administration has not given the welfare of the people any consideration whatever. The main object has been to weld the party machinery together so as to make it almost impregnable. As an example of this, we have only to cite to the people and election bills that affect St. Louis and Kansas City. The people are getting tired of this and will vote for a change.—Warrenton Banner.

Thrown From a Train.

The body of an unknown negro about 20 years of age, was found near the railroad track about five miles east of here last Wednesday morning. It is supposed that he came to his death by falling from a train, as his hat was found half buried in the ground and beneath it was the impression of a man's head. An examination of his clothes by the county coroner for papers, failed to furnish any clue to his identity. All that was found was a receipt reading as follows: "July 7th, 1900. Received of P. Cushingbury \$10 on bicycle." An Omaha street car ticket was also found in his pocket. It is supposed that he fell from some train last Saturday night, as his body was badly decomposed. The coroner's jury rendered a verdict in accordance with the above facts.—Slater Rustler.

Epilepsy Convulsions Spasms.

Epilepsy is irritation and debility of the nerve centres. It occurs in paroxysms, with usually uncertain intervals between. Frequently, the attacks come suddenly; at other times, they are preceded by indisposition, vertigo and stupor. Injurious practices, excessive over-indulgence in all things harmful, result in Epilepsy. Silent or Night Epilepsy is usually brought on by an overloaded stomach.

James L. Minnis has decided to remove to St. Louis some time this fall and open a law office in the Mound City. Mr. Minnis is a very able lawyer and we predict that he will make as great a success in his chosen profession in St. Louis as he has in Carroll county.—Carrollton Republican Record.

A showman took his little boy to a church in this burg Sunday. The ten year old lad was much interested in the contribution and watched the basket make its unweelcome trip around. After it was over he whispered to his father: "Papa, more'n half the folks has got in free!" The boy was right. There are more dead heads in the church than in any other organization on earth.—Centralla Courier.

DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price

By

dry goods dealers, grocers, agents, etc., and in a few instances as a premium for subscriptions to papers.

Announcements of these comparatively

Worthless

reprints are very misleading; for instance, they are advertised to be the substantial equivalent of a higher-priced book, when in reality, so far as we know and believe, they are all, from A to Z.

Reprint Dictionaries,

phototype copies of a book of over fifty years ago, which in its day was sold for about \$5.00, and which was much superior in paper, print, and binding to these imitations, being then a work of some merit instead of one

Long Since Obsolete.

The supplement of 10,000 so-called "new words," which some of these books are advertised to contain, was compiled by a gentleman who died over forty years ago, and was published before his death. Other minor additions are probably of more or less value.

The Webster's Unabridged Dictionary published by our house is the only meritorious one of that name familiar to this generation. It contains over 300 pages, with illustrations on nearly every page, and bears out its imprint on the title page. It is protected by copyright from cheap imitation.

Valuable as this work is, we have at vast expense published a thoroughly revised successor, known throughout the world as Webster's International Dictionary.
